

One of the founding objectives, principles that the Lake Region Anglers Association (LRAA) was founded on was the exchange of information and educational tools to our members to enhance their knowledge of fishing techniques. The following is from the heading Purposes and Objectives in the LRAA By-laws; **B: To improve angler skills through education via the exchange of information, ideas and techniques.**

Here is a set of videos put together by Frabill Inc. that provides a compilation of knowledge on Live Bait and Live Bait fishing techniques that we hope you will find helpful in broadening your fishing techniques and improving your fishing success. The first three videos cover the individual live-bait species and the fourth video is a combination of the first three with some added information not included in the individual videos.

Minnows - <http://www.youtube.com/watch?v=pticYptHaKs&feature=related>

Nightcrawlers - <http://www.youtube.com/watch?v=nhWrHMWlQao>

Leeches - <http://www.youtube.com/watch?v=d5nsHzL1d5Y&feature=related>

Fishing with Live Bait Series -
